## PROJECTS HANDLED

### PROJECTS HANDLED:

#### Project 1 –

Project Title	E-office
Position	Frontend & Backend developer
Technologies Used	Laravel , HTML, CSS, JS , Bootstrap, Mysql

#### Project description

The e-Office project is aimed at transforming traditional government offices, where work was done on paper, into a fully digital system. With e-Office, all files and documents are managed electronically, which reduces the need for physical paperwork and makes the workflow faster and more efficient.

#### Project -2

Project Title	A Comprehensive E-commerce Platform for Organic Products
Position	Frontend & Backend developer
Technologies Used	Laravel9 , HTML, CSS, Bootstrap, Mysql

### Project Description

The "Organica" project aims to develop a fully functional e-commerce website that specializes in providing a wide range of organic products, including vegetables, fruits, meats, and dairy products. This online platform will offer a seamless shopping experience for users, integrating essential e-commerce functionalities to meet customer demands.
